Who is **SONAGI?**

At SONAGI, we believe the outdoor spaces we love most are defined by connection. Here, we spend time with friends and family, engage with nature, and rediscover ourselves.

Our mission is to bridge technology and nature, ourselves and our communities, our indoor and outdoor lives—creating a more open and sustainable world where meaningful relationships thrive in harmony.

CORE BELIEF

We believe that the places we love most are marked by connection.

MISSION

We design premium electronics that bring warmth to everyday outdoor experiences.

VISION

A more expansive world that exists in harmony.

Value Proposition

ALL-WEATHER RELIABILITY

SONAGI offers peace of mind through proven expertise and industry experience. Your outdoor TV performs reliably in any weather, ensuring worry-free outdoor entertainment.

HARMONY WITH OUTDOOR LIVING

Seamlessly blend modern lifestyles with the natural world. Create a sanctuary where indoor and outdoor living merge effortlessly—with thoughtful design and distinctive functionality.

AFFORDABILITY

SONAGI delivers superior viewing quality at a competitive price. We position ourselves below industry leaders while maintaining healthy retailer margins—delivering premium value at an accessible price point.

ELEVATING YOUR VIEWING EXPERIENCE

We integrate cutting-edge technology—high-brightness displays, anti-glare screens, smart capabilities, and sleek design—with proven reliability and durability.

Orion Series

OUTDOOR TV 55"/65"/75"

Experience the outdoors like never before with the Sonagi Orion Series Outdoor TV. Designed for ultimate viewing pleasure, the Orion Series delivers stunning 4K UHD resolution (3,840x2,160) in 55", 65", and 75" sizes. With 300 nits brightness and 25% haze, you'll enjoy clear visuals even in bright conditions. Its IP54 rating ensures durability against the elements, while webOS brings smart entertainment to your patio.

Price: \$ 989
Map: \$1099.99

4K RESOLUTION

The Sonagi Orion Series delivers 3,840 x 2,160 pixel resolution—four times that of Full HD (1,920 x 1,080). This Ultra High Definition (UHD) provides incredibly clear, lifelike images with vivid, stunning detail.

IP54 WEATHERPROOF

Enjoy your favorite shows and movies outdoors with our IP54-rated Full Shade TV. Designed to withstand dust and splashing water, this durable TV is perfect for covered patios, gazebos, or any shaded outdoor space. Experience vibrant picture quality and reliable performance, rain or shine.

POWERED BY webOS TV

Built-in webOS makes setup easy and seamless. Its streamlined interface provides quick access to apps, streaming services, and settings. Watch your movies and shows on Netflix, Disney+, Amazon Prime, and YouTube with minimal hassle.

Helios Series

OUTDOOR TV 55"/65"/75"/85"

Experience optimized outdoor viewing with the Sonagi Helios Series UHD 4K, HDR Direct Full Array Outdoor TV. Turn everyday moments into epic outdoor entertainment with ultra-bright picture quality that remains vivid even in full daylight.

4K

UHD 4K

Sonagi TV features 3,840 x 2,160 pixel resolution which is 4 times the number of Full HD (1,920 x 1,080 pixel) display. This Ultra-high-definition (UHD) resolution provides incredibly clear and real-like images. Experience the vivid and magnificent 4K resolution.

IP65 WEATHERPROOF

Sonagi's IP65-graded housing provides superior protection against dust and water, making it ideal for use in various weather conditions. This robust design ensures the TV is safeguarded from rain, humidity, and debris, extending its durability and performance. With its reliable weatherproofing, you can enjoy outdoor entertainment worry-free, regardless of the environment.

POWERED BY webOS TV

With built-in webOS, setting up your TV is easy and seamless. Its streamlined interface allows easy access to apps, streaming services, and settings, ensuring quick navigation and minimal hassle. Watch your movies and shows on your favorite apps like Netflix, Disney+, Amazon Prime, and YouTube. With features like AI-based recommendations and voice control, webOS personalizes entertainment and simplifies interaction. Additionally, regular updates and a vast app ecosystem make it a future-ready platform for smart home integration and multimedia consumption.

INTUITIVE NAVIGATION

A clean layout that allows users to easily access apps, content, and settings.

VOICE CONTROL

Control TV settings, search for content, and manage IoT devices through voice input from Remote Control.

SMART CONTENT SUGGESTIONS

Provide popular apps like Netflix, YouTube, Disney+, Apple TV, Prime Video, etc.

MULTIPLE SCREEN COMPOSITION

Ability to perform other tasks while watching TV.

UPGRADEABLE OS

LG regularly provides updates to webOS, ensuring improved features and new services over time.

Exclusive Hospitality Distributor Las Vegas | **VILLAGE CASA**

Helios Series

Engineered with a wide viewing angle and anti-glare screen, this smart outdoor TV lets you enjoy movies and games without interruptions, even under the sunniest skies. Built to withstand the elements, this slim, weather-resistant TV is protected from rain and dust—so you can enjoy outdoor entertainment in any weather.

HIGH BRIGHTNESS DISPLAY

Experience exceptional visibility with 1,000 nit brightness, delivering vivid picture quality even in direct sunlight.

WIDE VIEWING ANGLE & ANTI-GLARE

The AG coating disperses light and reduces glare. The wide viewing angle ensures a clear image from any position—whether you're seated left, right, or standing. With a viewing angle up to 178°, everyone can enjoy the display comfortably.

Colossus Series

Premium LED Outdoor TV

55" / 65" / 75" / 86"

Sonagi's Outdoor Display offers an unparalleled viewing experience—imagine it enhancing your beachfront property or any outdoor space where premium entertainment matters. With astounding brightness of 2,500–3,000 nits, it delivers crystal-clear visuals even in dazzling sunlight. The IP66 dust and water resistance rating ensures reliable performance in any weather condition. Available in 55", 65", 75", and 86" sizes, the Colossus series provides the optimal choice for your space—completing your luxurious outdoor lifestyle with ultimate entertainment.

HIGH-BRIGHTNESS DISPLAY

The 2,500nit / 3,000nit high-brightness display offers superior clarity and visibility, even in bright outdoor conditions, ensuring your content stands out effectively.

IP66 GRADE

Sonagi's IP66-rated, all-weatherproof housing offers exceptional protection against dust, water, rain, humidity, and debris, ensuring robust durability and consistent performance. This makes it an ideal solution for outdoor signage and entertainment, delivering vibrant picture quality and clear message delivery reliably in any environment.

Colossus Series

Premium Outdoor Large Display 108" / 135"

Transform your backyard, patio, or poolside into the ultimate entertainment destination with Sonagi's Colossus 108"/135" Ultra-Bright Outdoor TV. This cutting-edge television delivers exceptional performance in any outdoor environment. It combines superior technology, durability, and convenience to create the perfect viewing experience under the open sky.

POWERED BY webOS HUB

Reliable Performance, Every Time

Precision Wiring and Reliable Engineering Standards

DELIVERING QUALITY THROUGH THOUGHTFUL DESIGN

Sonagi dedicates significant effort to both electronic components and external case design and production, enhancing overall quality.

CASE DESIGN FOR DURABILITY AND EFFICIENCY

Sonagi uses industry-leading case design that addresses waterproofing, dust protection, installation efficiency, and electrical and electronic performance.

SIMPLE MAINTENANCE

Its precise structure minimizes malfunctions and simplifies after-sales service.

Cutting-Edge Technology

ANTI-BLUE LIGHT

Comfortable viewing for extended use. Blue light radiation refers to high-energy visible light with wavelengths of 400–500nm, which is 10 times more harmful to eyes than ordinary light. Sonagi products minimize exposure to harmful blue light at the chip level, reducing blue light in the 415–455nm range.

Built with IP65 protection for long- lasting, reliable performance.

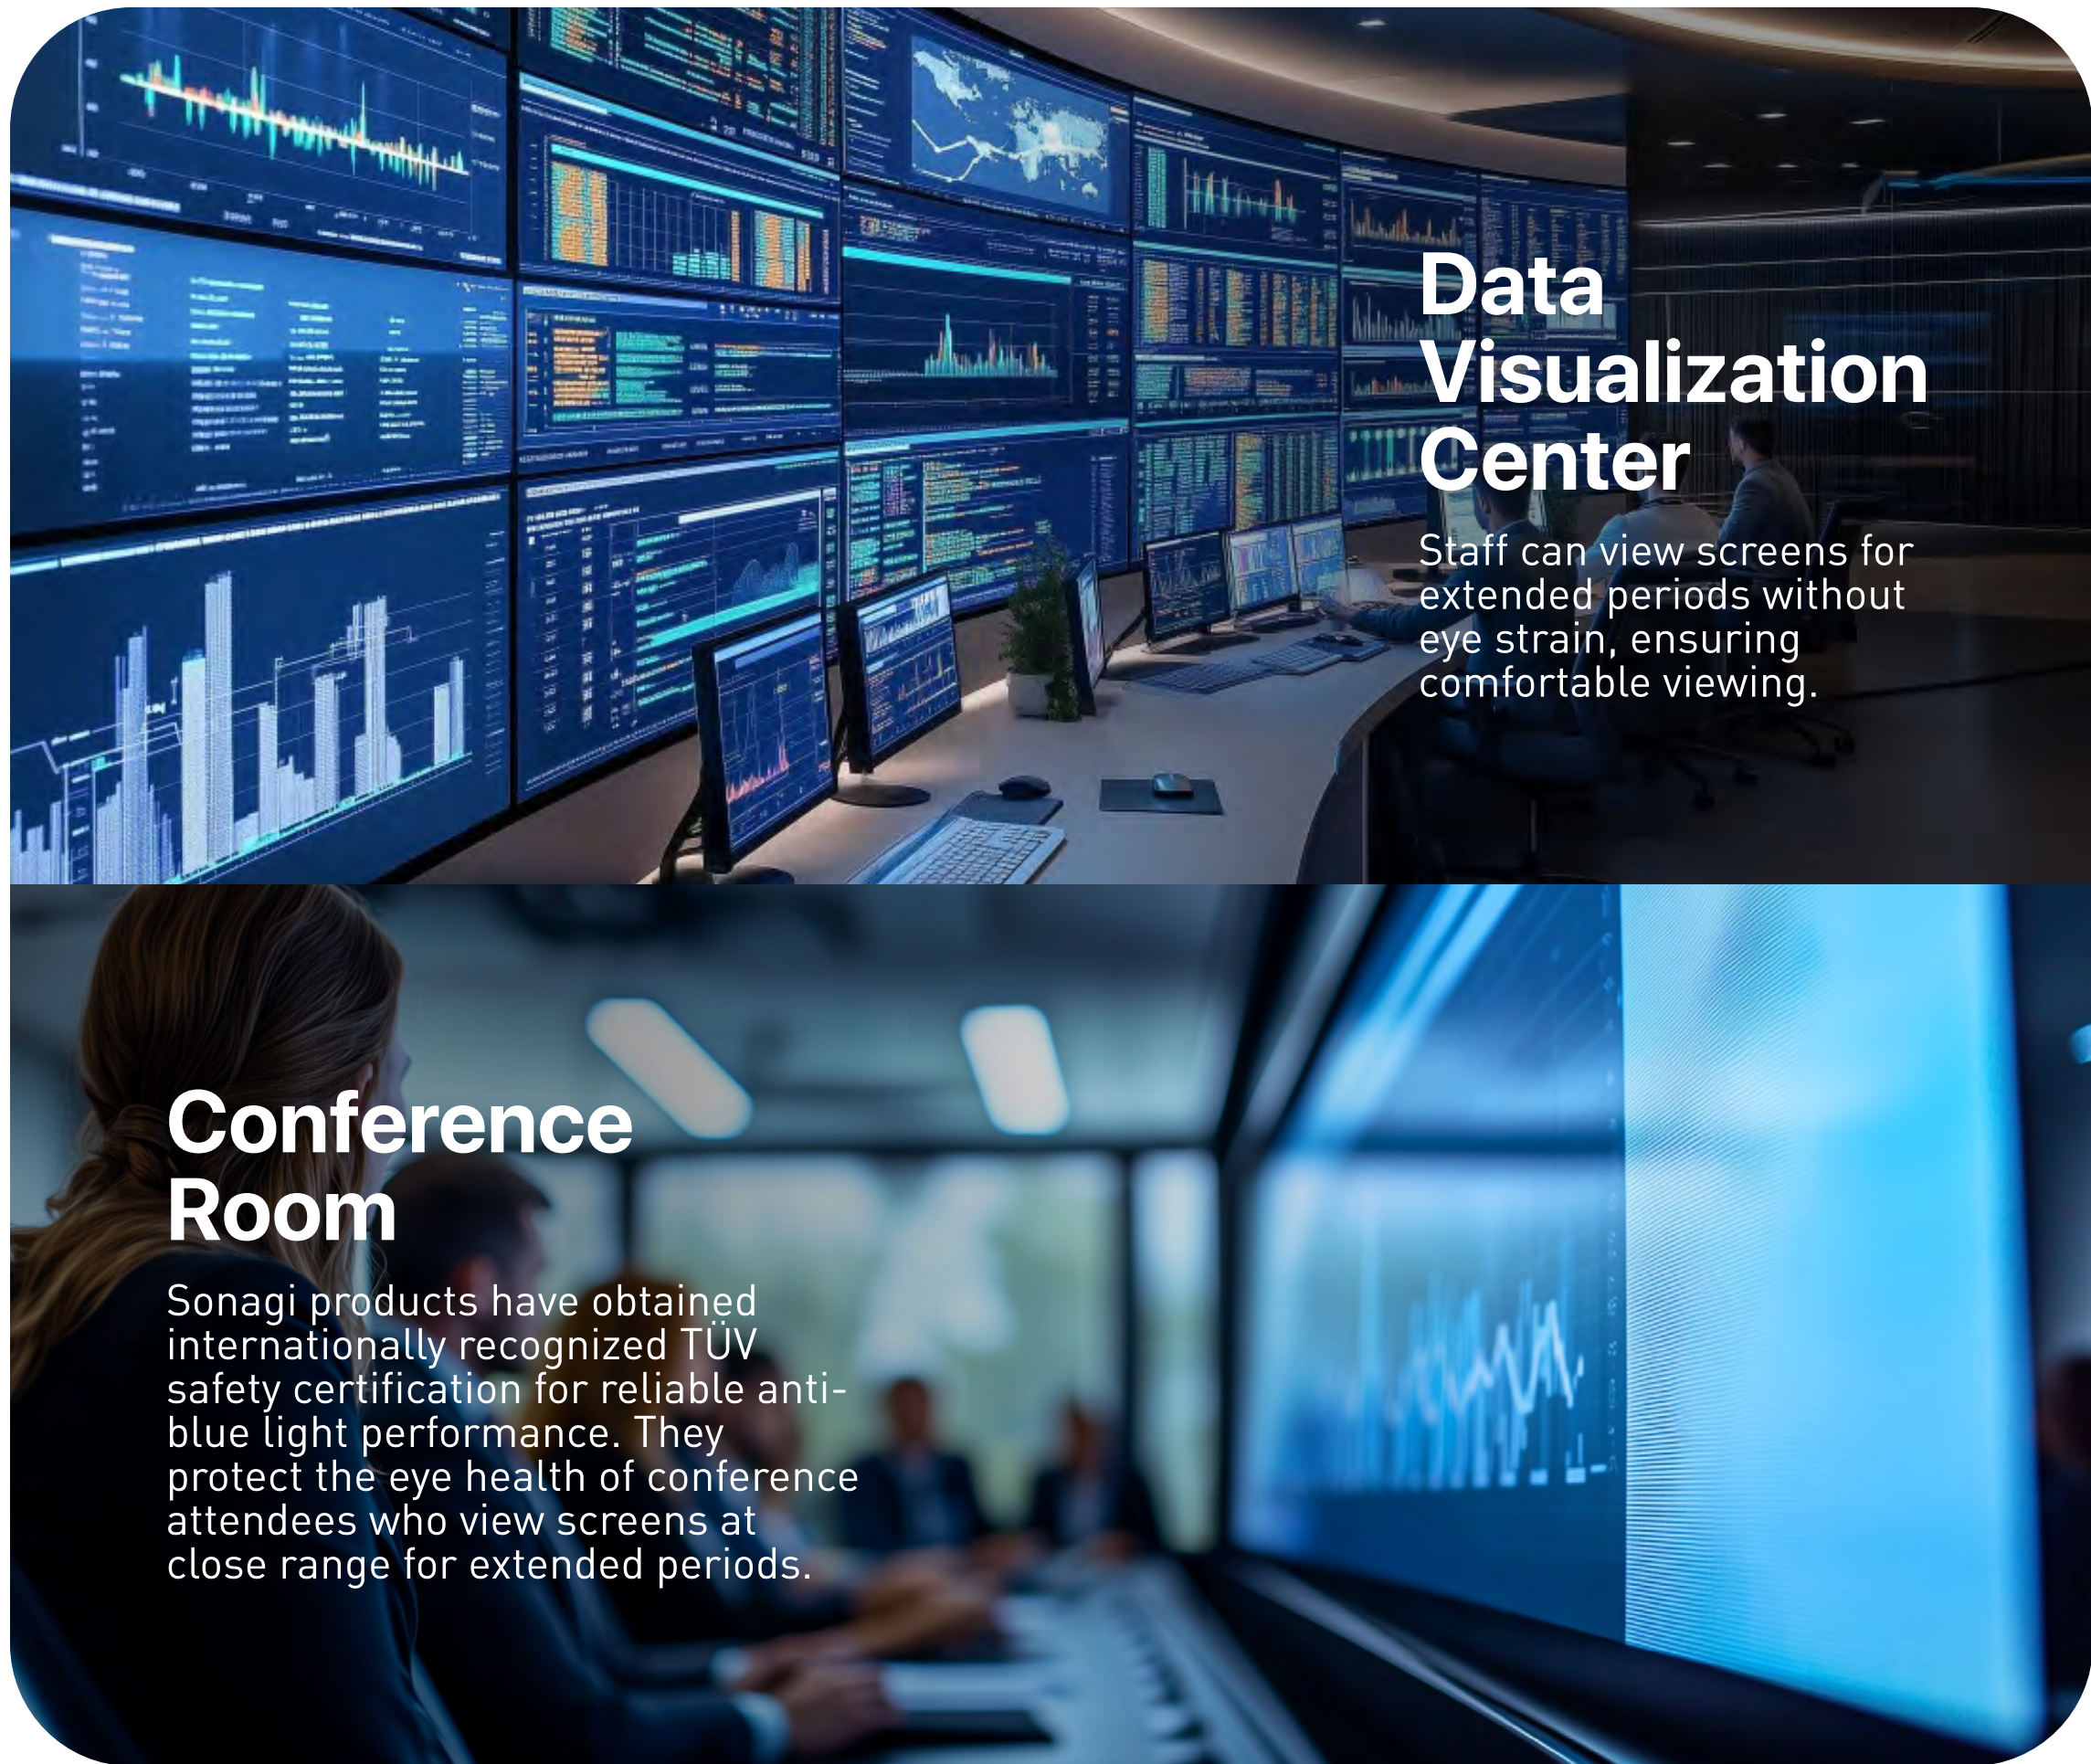

PROTECTIVE CASE DESIGN

Sonagi's outdoor display withstands any weather conditions throughout all four seasons, ensuring durability and reliability in any environment.

2,000NIT BRIGHTNESS

The Colossus delivers clear, vivid visuals in any outdoor environment, ensuring optimal performance regardless of conditions.

Suitable for Any Environment

Data Visualization Center

Staff can view screens for extended periods without eye strain, ensuring comfortable viewing.

Conference Room

Sonagi products have obtained internationally recognized TÜV safety certification for reliable anti-blue light performance. They protect the eye health of conference attendees who view screens at close range for extended periods.

SUPERIOR IMPACT RESISTANCE

Provides strong protection against physical impacts, ideal for environments with potential external pressure.

TEMPERATURE RESISTANCE

Maintains stability and performance in extreme conditions.

GLUE SURFACE TECHNOLOGY

Applies a specialized adhesive layer between the LED display panel and protective covering, such as tempered glass or protective film.

HIGH TRANSPARENCY

Maintains high light transmittance, preserving display brightness and visibility.

ENVIRONMENTAL PROTECTION

Offers excellent resistance to moisture, dust, and extreme temperatures—crucial for outdoor settings.

HIGH VISIBILITY

Blocking reflections, ensuring solid protection

Normal glass: Normal glass reflects external light, which significantly reduces visibility.

Anti-Reflection coated glass: Screen remains clear with optimally anti-reflection treated tempered glass.

Displays

Commercial

Exclusive Hospitality Distributor Las Vegas | **VILLAGE CASA**

QSR/QSR-Air

AVAILABLE SIZES: 21.5" / 27" / 32" / 49" / 55" / 65" / 75" / 86" **PRICING BETWEEN:** \$1299 & \$13,349

QSR/QSR-Air offers a comprehensive range of display sizes with reliable IP65 or IP66 protection that meets UL and CE safety standards, guarding against rain and dust. Featuring IPS panels for clear image quality and wide viewing angles, the displays use reinforced glass with AG or AR+AF coating and direct bonding technology to prevent image deterioration and external distortion from reflections. Built to withstand all four seasons, the system automatically adjusts screen brightness based on surrounding conditions.

ALL-WEATHERPROOF DESIGN AND COOLING SYSTEM

All Sonagi QSR Displays feature large, high-impact imagery that delivers excellent advertising results. Positioned at eye level, they provide prolonged visibility to citizens and passengers, making them highly effective static outdoor media. Their strategic placement ensures natural and frequent exposure, enhancing appeal and maximizing advertising impact.

Protection: IP65/IP66 grade cooling system

IK10 TEMPERED GLASS

IP65/IP66 GRADE WEATHERPROOF

AG, AR+AF COATING

PORTRAIT/ LANDSCAPE ORIENTATION

QWP, DIRECT-BONDING TECHNOLOGY

QSR/QSR-Air

ALL WEATHERPROOF DESIGN

Built for outdoor signage, this all-weatherproof design withstands diverse weather conditions while maintaining vibrant picture quality. It ensures clear, effective message delivery in any environment—making it a reliable solution for outdoor advertising.

QWP (QUARTER WAVE PLATE)

QWP (Quarter Wave Plate) technology counters the effects of polarized light, ensuring clear screen visibility for people wearing polarized glasses.

SMART LIGHT DIMMING SENSOR

The Smart Light Dimming Sensor detects ambient light and automatically adjusts screen brightness. In darker environments, the screen dims for comfortable viewing. In brighter settings, it increases brightness for enhanced visibility.

IMPACT PROTECTION (IK10)

Protected against 20 joules of impact—equivalent to a 5kg mass dropped from 40cm above the surface.

AR+AF Coated Display

The AR+AF coated display uses anti-reflection and anti-fingerprint technologies to prevent smudges from blocking your view. It provides excellent visibility from every angle, delivering clear, crisp images throughout the day.

Direct Bonding

Direct Bonding technology connects the LCD panel directly to the tempered cover glass using transparent resin. This enhances color transmission and delivers clearer, more vibrant picture quality.

Dual Display

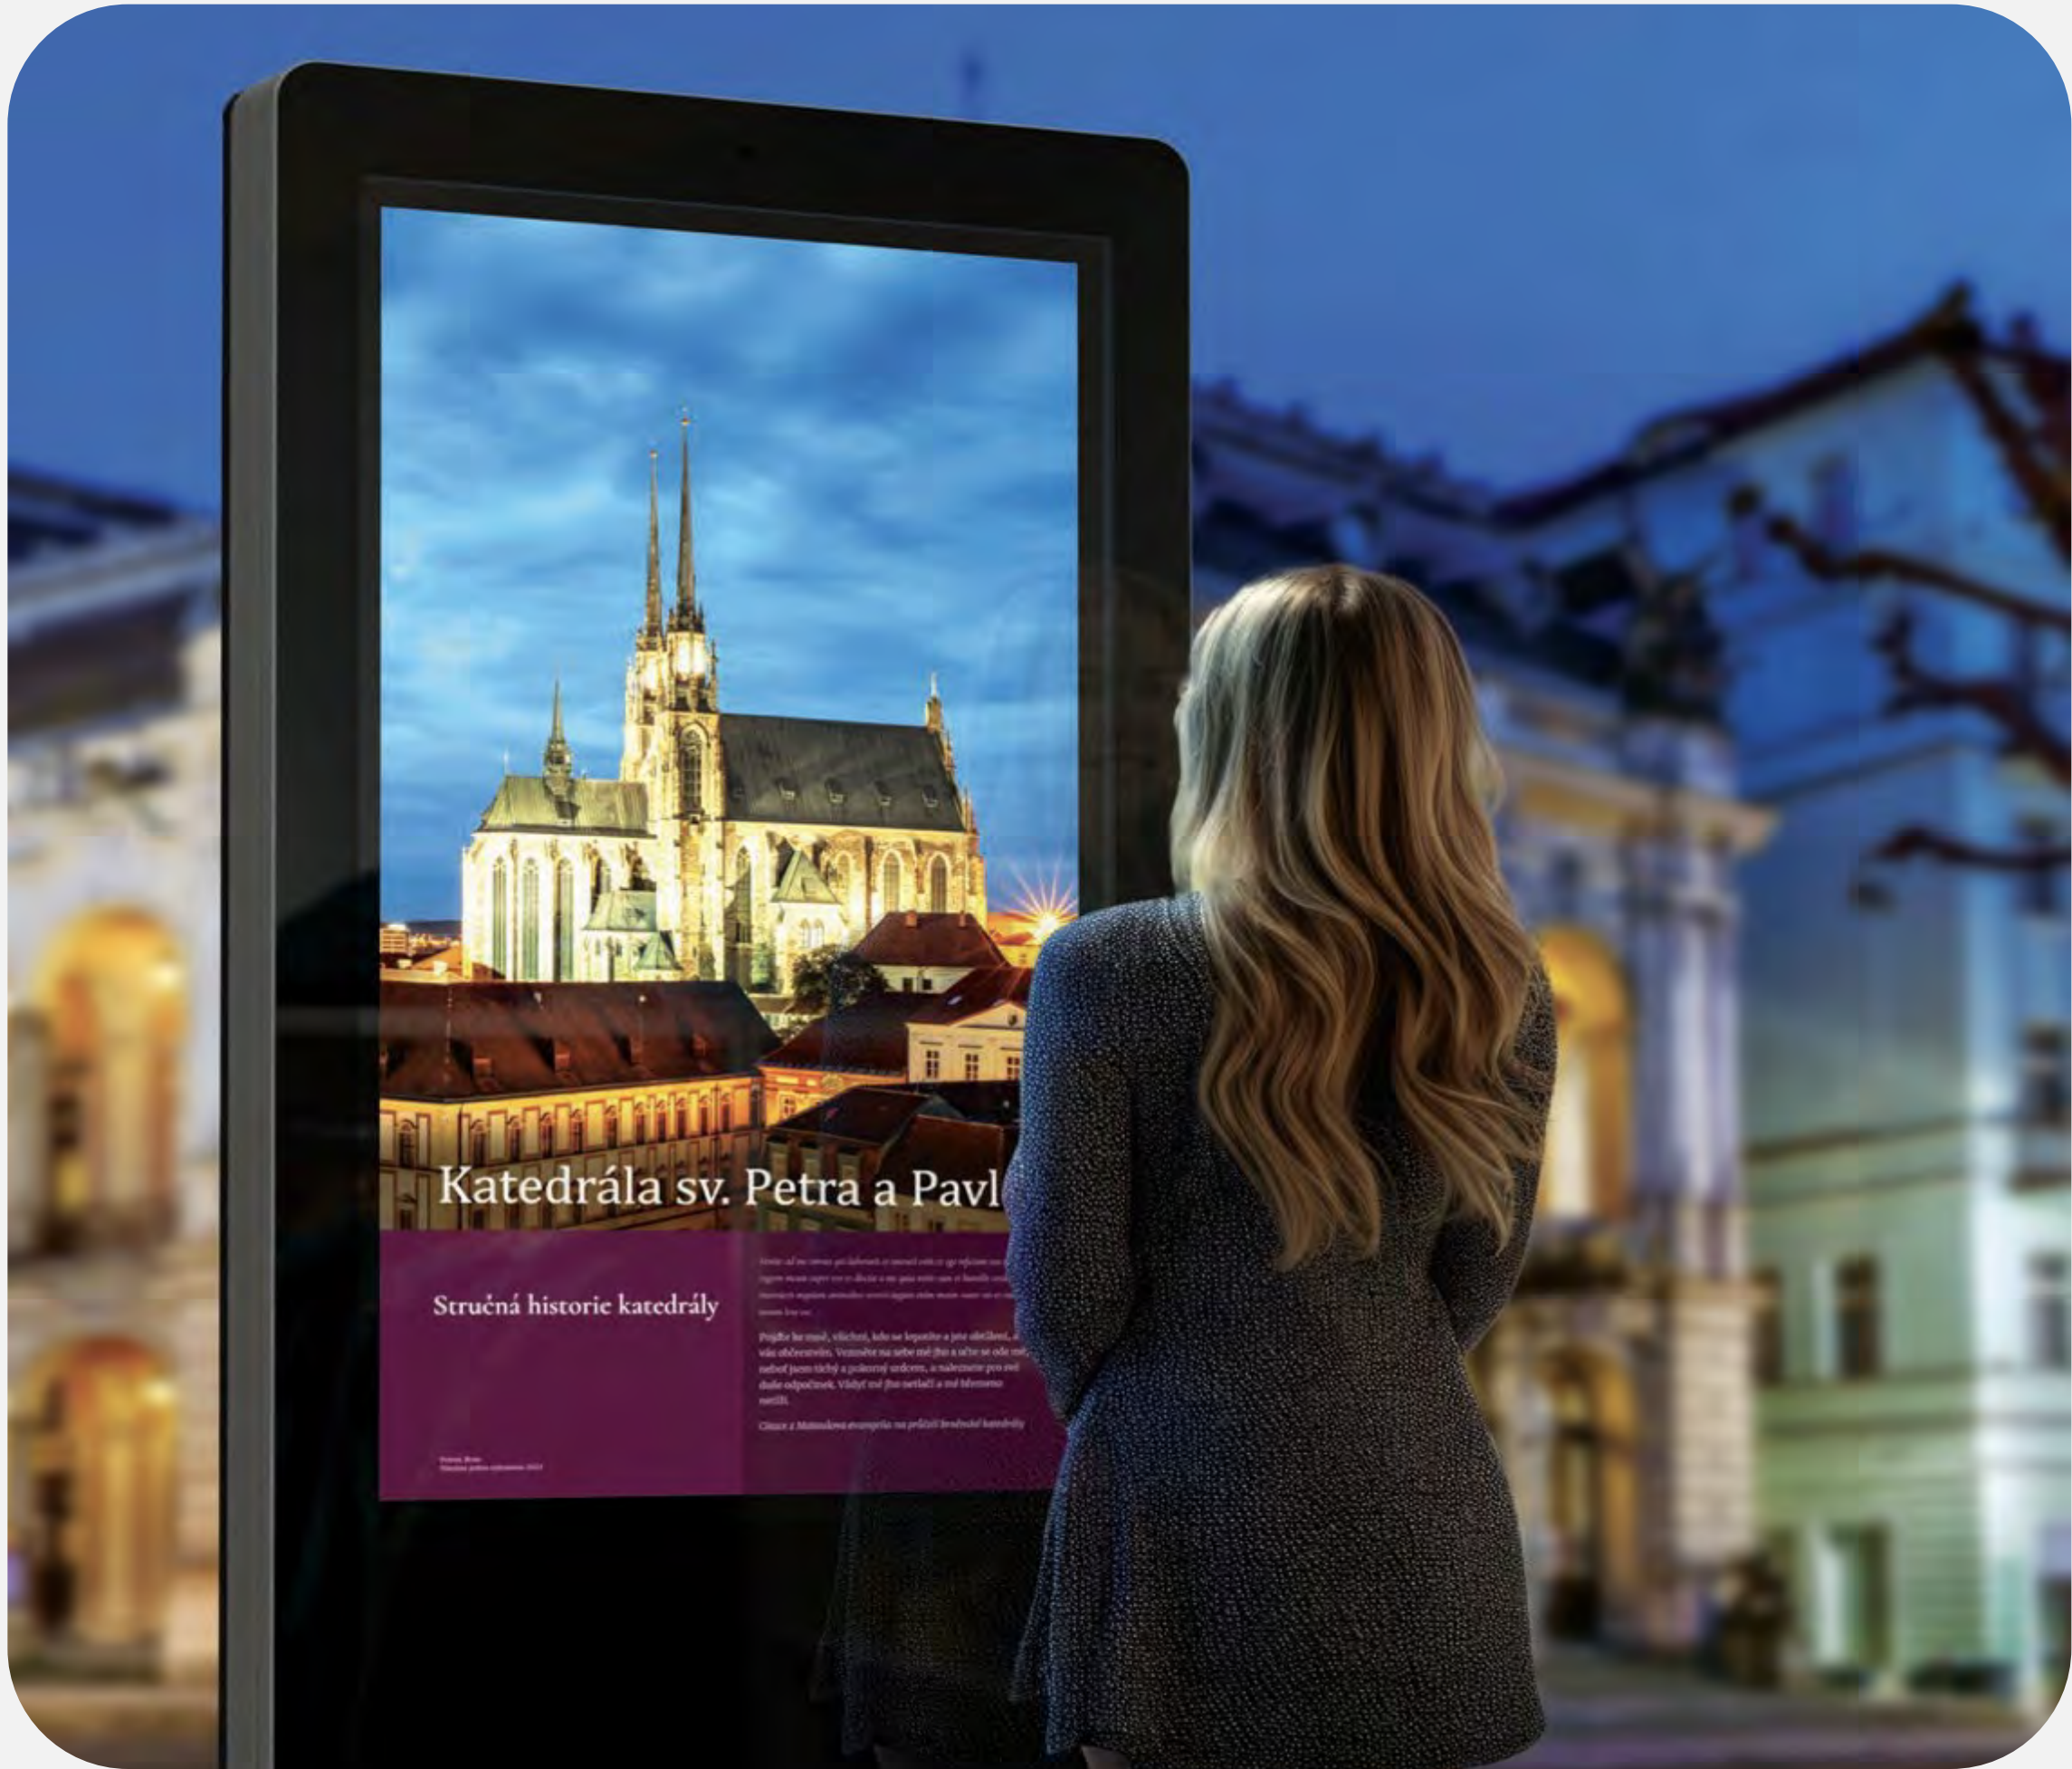

INDOOR SIGNAGE: 32" / 49" / 55" PRICING BETWEEN: \$3789 & \$4,959

Sonagi Dual Displays feature double-sided screens: the outward-facing panel delivers 2,000–2,500 nits, ensuring vivid colors and readable content even in direct sunlight, while the inward-facing panel operates at 400–1,000 nits for accurate, eye-pleasing visuals suited to indoor lighting.
